

ROWING
CANADA
AVIRON

www.rowingcanada.org

Dear Rower:

Rowing Canada Aviron, with the support of Sport Canada, has purchased Edon TS515 for our RCA Recreational Fleet, that is shared between member clubs and provinces. This “club start up program” ensures clubs have quality boats to run programs and promote rowing in their community.

The Edon TS515 Waterdart Rowing Shell, manufactured in Australia, is a multi-use rowing shell that is perfect for new youth and adult rowers. This reasonably priced single shell will allow rowing clubs to purchase a boat with pontoons that allows new rowers to try sculling on the very first stroke. This durable sculling boat is a great fit to instill injury free, quality technical rowing, aligning with LTAD (Long Term Athlete Development) principles.

RCA is also receiving great feedback on the use of these shells for competition and provides the opportunity for new rowers to compete in the RCA CAN ROW Skills Event and sprint events. The Edon is also very suitable for more experienced rowers who will compete in longer rowing races.

Sincerely,

Colleen Miller
